## EDUCATION

### Sagi Ramakrishnam Raju Engineering College

Bachelor of Technology in Computer Science and Engineering

Bhimavaram

Aug. 2021 – May 2025

### Narayana College

MPC

Visakhapatnam

Aug. 2019 – May 2021

## EXPERIENCE

### Full Stack Development Intern

BlackBucks Engineers

May 2024

Hyderabad

- Gained hands-on experience in full-stack development through a user-centric web application.
- Enhanced my skills in the MERN stack, focusing on MongoDB, Express, React, and Node.js.
- Collaborated with a team to enhance user engagement and improve user experience design.

## PROJECTS

### BlogIt | React, Node.js, MongoDB [↗](#)

- Developed a **scalable blogging platform** using the **MERN stack**, enabling users to create, categorize, and comment on posts.
- Designed a user-friendly interface for content creation with dynamic input validation and media management, optimizing workflow efficiency.
- Implemented **user management features** for secure credential updates and personalized dashboards to manage authored blogs.

### Chat Application | React, Node.js, MongoDB [↗](#)

- Developed a **real-time messaging platform** using the **MERN stack**, ensuring **seamless communication** among users.
- Enabled users to **engage in one-on-one conversations** and **create chat groups** for dynamic interactions.
- Integrated **Socket.IO** for **instant message delivery**, enhancing user experience.
- Developed a **dynamic user interface** with React, featuring **dark and light mode** options for accessibility.

### Focusite | HTML, CSS, JavaScript [↗](#)

- Developed a website to help users achieve deep focus and reduce distractions through focused workflows and minimalistic design.
- Implemented features such as a **countdown timer**, **relaxing music player**, and a distraction pad, enhancing focus for longer periods.

### PayTM Wallet | React, Express.js [↗](#)

- Developed a wallet application with **user registration**, secure sign-in, and automatic account creation featuring randomized initial balances.
- Designed a **dashboard** for real-time **balance display** and secure money transfers with instantaneous transactions.

## TECHNICAL SKILLS

**Languages:** C++, JavaScript, SQL, HTML, CSS

**Frameworks & Tech:** ReactJS, NodeJS, ExpressJS, MongoDB, AWS

**Developer Tools:** VS Code, Git, GitHub

## ACHIEVEMENTS

- Solved 300+ Problems in Leetcode.
- Participated in the national-level Smart India Hackathon 2023 and college-level Hackoverflow, contributing to notable projects.
- Obtained Full Stack Development Internship certification from IIDT in 2024.
